

## **Shu Cosmetic Surgery Institute expands Medspa with Walk-in Botox Boutique**

*Shu Cosmetic Surgery Institute has just announced its new clinic and medspa location, which is now accepting walk-ins for the medspa. The walk-in medspa features a 'Botox Boutique' and a variety of procedures for all sorts of skincare needs performed by either our estheticians or physician assistant.*

**Edina, MN (April 2012)** - Shu Cosmetic Surgery Medspa now accepts walk-ins which is unique and unlike any other medspa around! An assortment of services can be accomplished right over the lunch hour with their quick and easy walk-in system. The Botox Boutique offers popular injectables (Botox®, Radiesse® and Juvéderm®) for reduction in wrinkles and for volumizing in areas of the face or body. One may also walk-in and have other services such as skin consultations and education about the very best skincare products including Vivier®, Skin TX®, Skin Medica®, Neocutis®, and much much more! Microdermabrasion, various laser treatments and chemical peels are also available for walk-ins, if time permits.

"We designed our walk-in Botox Boutique for a quick, quality service in a calm and relaxing environment", said Katie, new medspa director. "Our priority is to keep our patients comfortable, with little to no pain during procedures. Our medical grade skin care products have been carefully chosen to give safe with effective results. Our courteous staff is always available to help achieve your individual aesthetic goals with and customized skin care programs and education."

Shu Cosmetic Surgery Medspa offers best-in-class Sciton laser treatment solutions for a variety of skin care needs, such as acne, wrinkles, scars, sunspots, spider veins, skin lesions, redness/rosacea, and nail fungus. The laser is very versatile and may also be used for laser hair removal, tattoo removal, skin tightening, stretch mark reduction, and excessive sweating. Furthermore, patients can smooth out cellulite and tighten areas of loose skin using a dynamic laser and light energy machine called Smooth Shapes®.

Shu Cosmetic Surgery Institute recently relocated its facilities to a dazzling 5,000-square-foot suite inside Southdale Medical Center, suite #290. The expanded space allows for even more extensive services featuring six spacious rooms dedicated to medspa services alone – including a consultation room, photography room, and laser rooms.

"Our well rounded staff now includes two estheticians – Sonya and Jenny – and our physician assistant, Katie, who will perform more invasive procedures," said Dr. Steven Shu.

Last but not least the prices are affordable at Shu Cosmetic Surgery Medspa. They offer a different procedure package promotion each month at a discount price. The center's service menu offers plenty of options to fit every skincare need!

Dr. Steven Shu, MD, MBA, is a board certified laser surgeon and a pioneer of office cosmetic surgeries in the United States. He has adopted countless revolutionary techniques to achieve ideal results with more efficiency and safety.
